Wineries and vineyards 'Señorío de Bocos' (Bocos Wines)

Secure payment and return policy

Secure payment

We offer secure payment with SSL

We offer secure payment with SSL

SSL is the acronym for Secure Sockets Layer, the standard technology for keeping an Internet connection secure, as well as for protecting any confidential information that is sent between two systems and preventing criminals from reading and modifying any data that is transferred, including information that could be considered personal. The two systems can be a server and a client (for example, a shopping website and a browser) or from server to server (for example, an application with personally identifiable information or payroll data).

This is done by ensuring that all data that is transferred between users and websites or between two systems is impossible to read. It uses encryption algorithms to encrypt the data that is transmitted and prevent hackers from reading it when sending it over the connection. This information could be any confidential or personal data, for example, credit card numbers and other bank details, names and addresses.

You can make your secure payment using: BIZUM, Visa / Mastercard / American Express or Masterpass cards, as well as Bank transfer

You can also pay with AmazonPay, Paypal and Klarna

Returns and Withdrawal Policy

In accordance with the EU regulations on consumer rights, "we guarantee" that if any of our products that we send to you in response to your order, does not correspond to the characteristics, descriptions and qualities set forth in our online store (bocos.eu) or on its labeling, we will replace it at no additional cost or we will refund the price paid for it.

You have the right to return your purchases made online, without having to justify your withdrawal, within a period of 14 calendar days after receiving them. In order for us to reimburse you, you have to return the items in their good original condition and in the same packaging in which we sent them, since it avoids breakages in transport. The consumer will have to bear the cost of returning the goods in case of withdrawal.
